

Job ID:

Title: Environmental Specialist

City: Boise

State: ID

Zip Code: 83709

Country: USA

Category: Landscape Architects, Environmental and Land Use Planners

Years of Experience: All Years

Compensation: DOE

Description: Seeking a self-motivated entry to mid-level Visual Resource Analyst professional with education/experience in land use, landscape architecture, and/or environmental planning. Experience with utility projects such as electric transmission lines, power generation facilities and wind farms is desired but not required. The successful candidate will demonstrate skills in landscape planning and design, land use planning and analysis, technical writing, and demonstrate an interest in local and regional planning practices in the siting and impact analysis of energy related projects. Bachelor's degree in landscape architecture or related field is required; advanced degree or professional registration a plus. Knowledge of Bureau of Land Management VRM system and Forest Service VMS/SMS and the ability to work closely and communicate effectively with public agency staff also a plus. See full listings online at <http://www.powereng.com/careers/index.aspx?id=112>

Skills Required: Ability to work independently under tight schedules, technical writing ability, and knowledge or experience in utilization of GIS, GPS and Visual Simulations.

Education Requirements: Bachelor's or Master's (Landscape Architecture, Planning, Environmental Studies, etc.)

Travel Required: Yes. Positions also available in Hailey (ID), Anaheim (CA), Houston (TX)
