

## **The National Conservation System Foundation seeks a Field Director based in Bozeman, Montana.**

The National Conservation System Foundation is a new, non-profit organization created to ensure the Bureau of Land Management is able to provide long-term protection for the lands and waters within the National Landscape Conservation System. Our mission is to protect, restore and expand the Conservation System through education, advocacy and partnerships

The Field Director will work with local citizen groups (Friends groups) already engaged in activities to support the Conservation System and coordinate the organization of new ones. The Field Director will spearhead efforts to link the groups together to create a vibrant network of sustainable, effective grassroots groups working to support the conservation of individual units and the System as a whole. A minimum of three years of experience working with grassroots groups is required.

The Field Director will be a key member of a dynamic, creative, and skilled team working to help support America's newest system of protected public lands. This is an exciting opportunity to help shape a new conservation organization and work with citizens across the West to protect some of our country's most outstanding cultural and ecologic landscapes.

A complete job description can be found at: [www.OurConservationLegacy.org](http://www.OurConservationLegacy.org)-Send your cover letter, resume and references (including one reference from a person familiar with your grassroots work) to Betsy Buffington, Vice President for Programs, National Conservation System Foundation, [betsy@OurConservationLegacy.org](mailto:betsy@OurConservationLegacy.org). No phone calls please.

The position will remain open until March 31, 2008.

Betsy Buffington  
Vice President for Programs  
National Conservation System Foundation  
PO Box 1414, Bozeman, MT 59771
